

AIR NATIONAL GUARD
FISCAL YEAR 2018 (FY18)
ANG COMMANDER DEVELOPMENT COURSE (CDC)
ANNOUNCEMENT

The **FY 18 ANG Commander Development Course (CDC)** dates are **20-28 March 2018** with travel on 19 and 28 March (after 1600); and **15-23 May 2018** with travel on 14 and 23 May (after 1600). CDC is unit funded and is held in the Jackson Auditorium at Conaway Hall, 3500 Fetchet Ave, ANG Readiness Center, Joint Base Andrews, MD.

Overview: CDC provides attendees with an opportunity to hear presentations from, and participate in discussions with, senior Air National Guard and Air Force leaders, centering on the theme *“Deliberate Leadership; Intentional Command.”* The seminar synthesizes the experiences of seasoned Commanders and leaders throughout the Air National Guard to offer leading-edge thinking and best practices to enhance the student’s leadership capacity. The course gives attendees the latest information and exposure to understand and handle a broad spectrum of issues/challenges both at home and in the National Capitol Region, including NGB and Congressional Delegate familiarity.

Audience: The Commander Development Course (CDC) is a full spectrum leadership development course designed for Air National Guard leaders, lieutenant colonel through colonel or equivalent, who are assigned at the group, wing or headquarters levels; or have the potential to be assigned to command positions at these levels. The CDC is also open to senior Army National Guard colonels/general officer candidates working within their states or at their Joint Force Headquarters, as well as Active Component officers serving at ANG Associate Units.

Course Length: Class begins Tuesday at 0730L and ends the following Wednesday at approximately 1200, allowing evening air or auto travel return to your home unit for most students. You should plan to arrive one day prior to the class start date.

Board President’s Course: Students may elect to be enrolled in the BPC. This class is 2 ½ days long and it will start at 1200 on Wednesday upon CDC completion. BPC is designed to train future Safety/Accident Investigation Board presidents regarding their duties and responsibilities for Class A/B aviation, ground, space, and weapons mishaps.

Funding: The CDC is unit funded.

Registration: Due by **15 Dec 2017**. After a member receives endorsement from his/her Wing Commander or equivalent, the Wing Force Development Office will complete and email the CDC Registration Request Form to the course manager. If multiple members of the same Wing request attendance in the same Fiscal Year, the Wing will submit the list of names in order of prioritization. Approximately 60 days prior to the class start date, prospective students will be notified by the Course Manager through email if they were selected to attend the class, or if they were added to the waitlist. NGB/HRT will provide Training Line Numbers (TLN) to selected students’ Force Development Offices approximately 20 days prior to the class. The registration form can be found at the following link:
